Subject: WI LDF EPA Call

Dear Quinn:

After we spoke today I followed up with EPA and LDF, with regard a date for our call, to discuss a proposed intergovernmental agreement to facilitate clean up of the Tower Standard/Haskell Lake Site.

As time is of the essence, I asked that participants give me their earliest possible date and that date is Thursday May 7th. The two available times for the call are 1:00 pm CT and 3:00 pm CT.

Please let me know if this date/times works for the State representatives so that we may plan accordingly.

Thanks for your help.

Richard
